# ***INTRODUCTION***

## **COMPANY**

- Deep expertise in IT sector since 2007
- Customizable software development
- Innovation-oriented approach

**01**

**02**

## **PROJECTS**

- 100+ completed R&D projects
- Always on-time delivery
- Total control over tech-stack

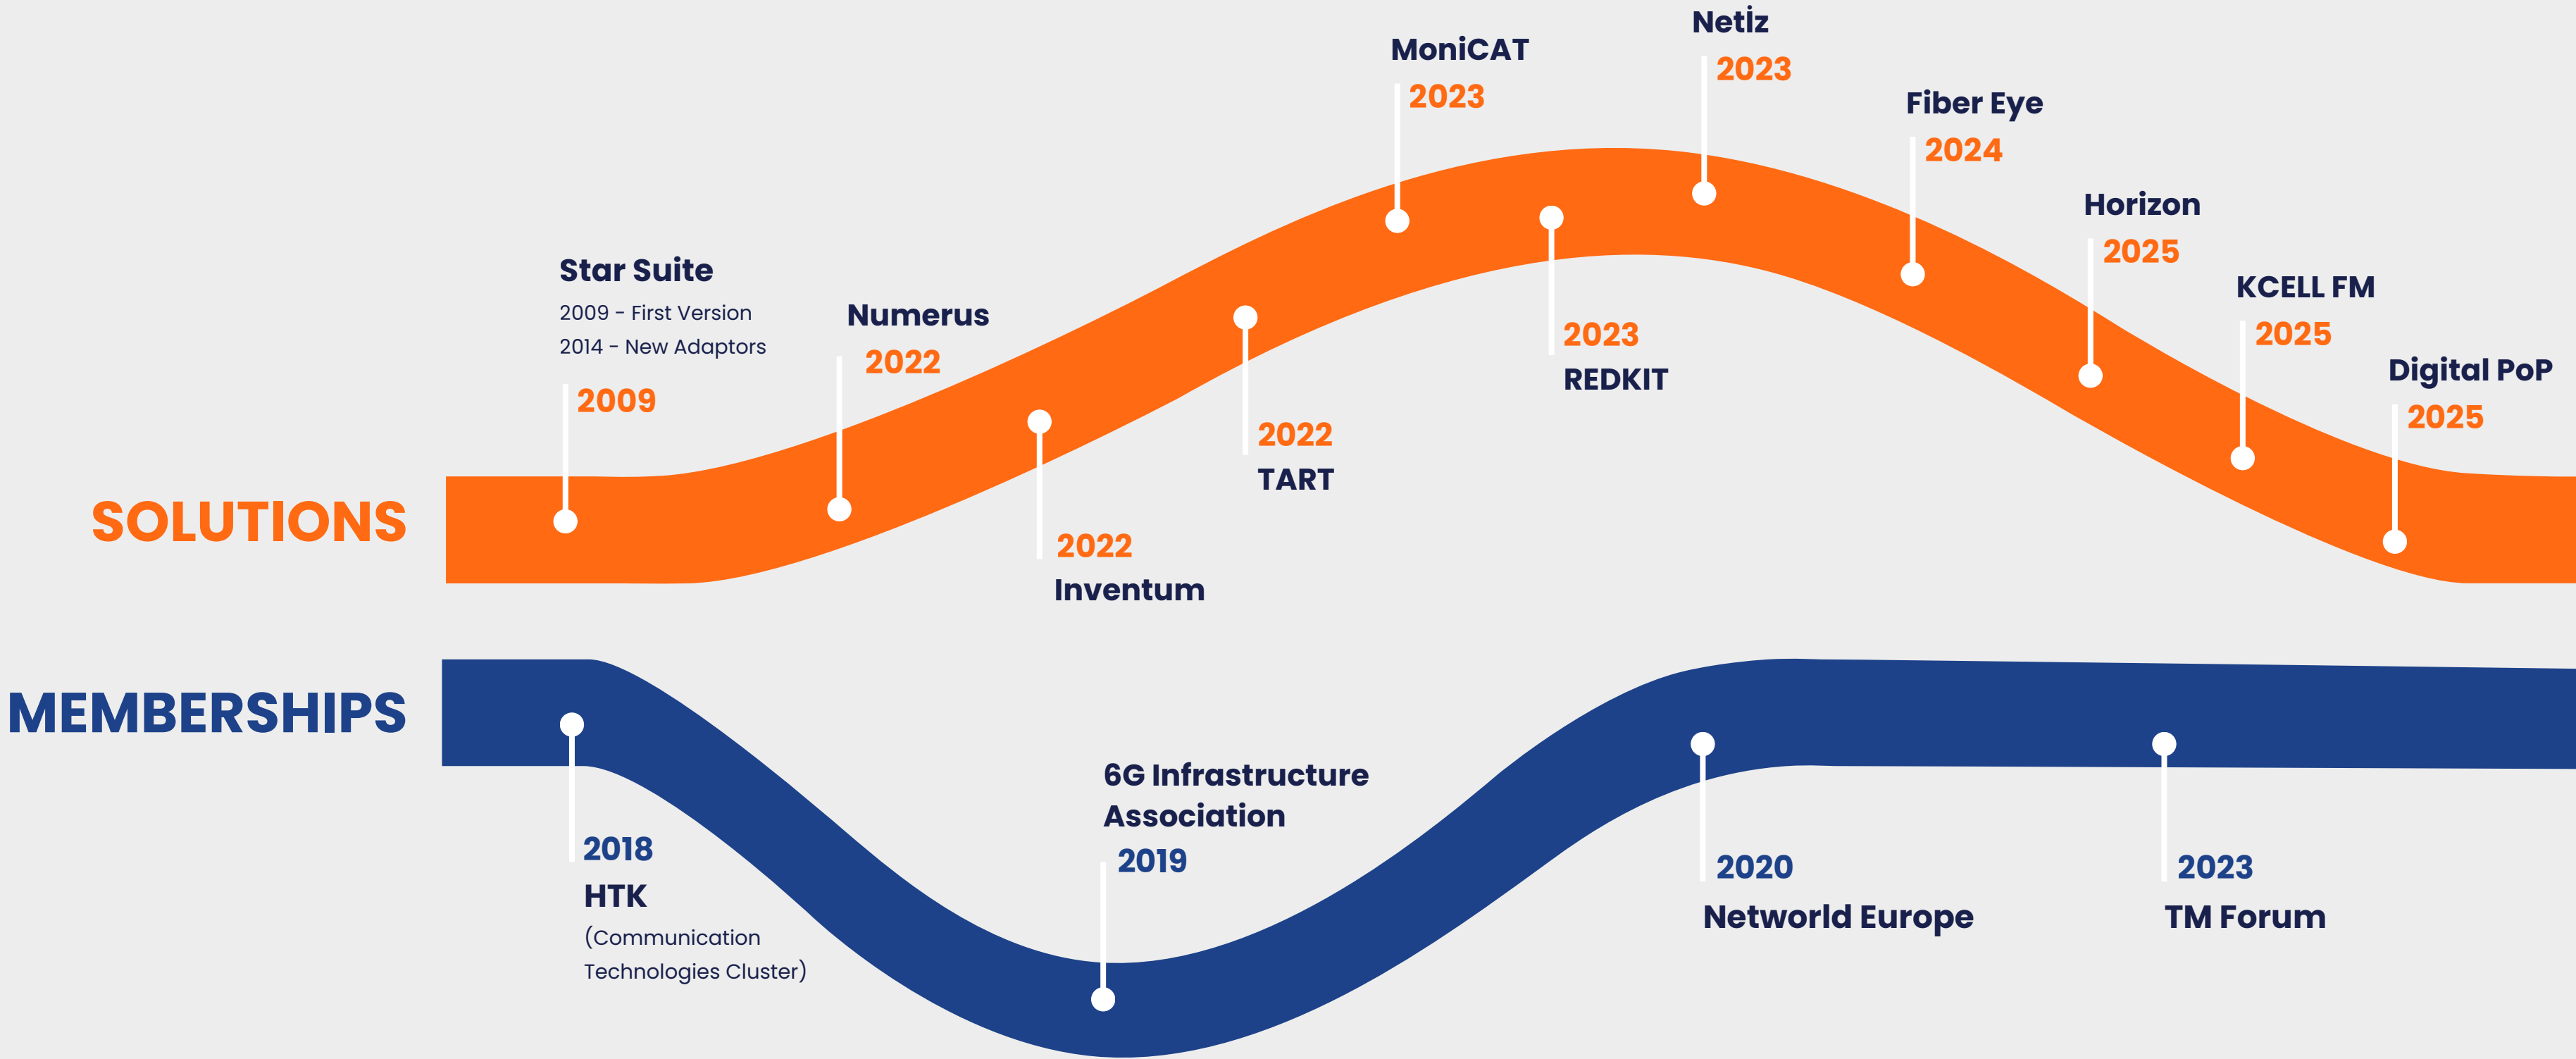

## **TEAM**

- 100+ experts in their fields
- Employee retention rate of +90%

# *TechNarts' Capabilities*

**TechNarts** empowers telecom operators with intelligent **OSS solutions**, combining **AI-driven automation**, **zero-touch operations**, and **unified visibility** across complex networks. Our capabilities ensure resilience, efficiency, and readiness for **5G and beyond**.

## Core Capabilities

 **End-to-End Network  
Visibility**

 **AI & Zero-Touch  
Automation**

 **Seamless Integration &  
Scalability**

***OSS at the Core, Engineering at the Edge.***

# NETWORK SOLUTIONS

# TELCO SOLUTIONS

All-in-one OSS

Automatic Network  
Discovery &  
Reconciliation

IP Address Management

Network Planning & PoP  
Location Management

Topology Based  
Configuration & Alarm  
Management

**KSS**

Umbrella Fault  
Management

Network Traffic Analysis  
& Reporting

Digital Twin

Zero Touch Configuration &  
Provisioning Management

**HORIZON**

Smart Network Analysis  
& Automation

AI-Centric Private  
Network Management

**NHYS**

Rule-Based Alarm  
Lifecycle &  
Visualization Platform

# OTHER SOLUTIONS

**Pharmaceutical Track  
and Trace System**

## **UTTS-NMS**

**Network & Edge Device  
Management Layer for Vehicle  
Identification and Fuel  
Monitoring Infrastructure**

## **DBYS**

**Centralized Management  
& Anomaly Detection  
Platform for the Deposit  
Return Infrastructure**

**Digital Product  
Identity & Number  
Management  
System**

# NETWORK PRODUCTS

# NETWORK PRODUCTS

## RESOURCE MANAGEMENT

- Inventory Management
- Energy Systems Management
- IP Address Management
- Auto-Discovery & Reconciliation

## NETWORK ASSURANCE

- Fault Management
- Trouble Ticket Management
- Network Monitoring
- Network Quality Management
- SLA Management

## NETWORK FULLFILMENT & ORCHESTRATION

- Network Configuration Management
- Network Provisioning & Activation

## NETWORK PLUG-INS

- Observability and Monitoring
- Dynamic Reporting
- Network Planning
- Network Optimization
- Impact Analysis
- Root Cause Analysis
- E2E Network Topology

# Why TechNarts?

*OSS at the Core, Engineering at the Edge.*

## Customizable Dashboards & Reports

Empower teams with real-time visibility through flexible dashboards and automated reports tailored to your business needs.

## Tailor-Made Solutions

Every solution is designed to fit unique operator requirements, ensuring seamless integration and measurable impact.

## Global Standards

Our solutions are aligned with the industry standards within the **ODA Component Directory Map**, ensuring our offerings are well-integrated and easily accessible within the larger digital ecosystem.

## Future-Proof & User-Centric

Continuously evolving solutions adapt to new technologies and user demands without additional applications or hidden costs.
